Entry-level Software Developer

Dynamic professional with a solid foundation in full-stack development, web development, and application development, delivering user-friendly solutions. Proficient in multiple programming languages, including Java, Python, and C++, and experienced in collaborating with cross-functional teams to design, develop, and test software solutions. Skilled Nunit testing with a knack for crafting creative and innovative solutions to ensure robust and reliable software products. Demonstrated expertise in developing cross-platform mobile applications for Android and iOS using React Native, resulting in cost and time savings. Committed to delivering high-quality software solutions to meet business and end-user needs while adhering to best practices and industry standards. Eloquent communicator with excellent relationship-building expertise, fostering connections that drive collaboration and success.

Technical Proficiencies

Platforms:	Windows Linux
Programming Languages:	Java Python C++ SQL C#
Web Development:	HTML CSS VueJS ReactJS TypeScript JavaScript/ES AngularJS ASP.Net with C# VS Code
Database Management:	MySQL DynamoDB (Data Integrity, Optimization)
Cloud Technologies:	AWS (Lambdas, ECS Fargate, KMS, S3) Azure
Tools & Software:	SQL phpMyAdmin Jira Confluence

Academic Highlights

Southern Cross University - Perth, WA

NOV 2019 - DEC 2022

Student - Bachelor of Information Technology - Software Development

Developed proficiency in multiple programming languages, enabling the creation of diverse software applications. Gained a solid understanding of software engineering principles, including design patterns, software architecture, and agile development methodologies. Acquired expertise to contribute to design and architecture of software systems, ensuring scalability, security, and maintainability.

- Collaborated with peers to design and develop software applications, websites, and databases.
- Stayed current with emerging trends and technologies in the software development field, with exposure to mobile app development, cloud computing, and IoT.

Internship Experience

Cloudcon Pty Ltd, Canterbury, VIC

AUG 2023

Software Developer Intern

Developed versatile solutions by utilising various programming languages and technology stacks. Created cross-platform mobile applications using React Native for Android and iOS, reducing development time and costs. Designed and built user-friendly web interfaces with VueJS, ReactJS, TypeScript, and JavaScript. Implemented robust server-side logic using ASP.Net and C# for web applications. Enhanced application features and integration by working with Azure technologies.

- Ensured data integrity through effective database management with MySQL and DynamoDB.
- Leveraged AWS services, including Lambdas, ECS Fargate, KMS, and S3, to develop secure/scalable cloud-based applications.

Professional Experience

Kathmandu - Belmont, WA

Mar 2023 – Aug 2023

Assistant Manager

Spearhead efficient store management, resulting in streamlined operations and increased profitability. Foster a customer-focused culture by implementing strategic sales, service, and compliance initiatives, boosting customer satisfaction and loyalty. Lead and motivate a diverse team to consistently achieve KPIs and exceed sales objectives. Document critical information using the MS Office Suite, ensuring accurate and organized records. Ensure strict compliance with occupational health and safety (OHNS) standards, maintaining a secure and accident-free work environment.

- Surpassed Q3 sales targets by an exceptional 17%, driving substantial revenue growth.
- Expertly onboarded new employees through comprehensive training and meticulous documentation, resulting in a reduced learning curve and enhanced team productivity.

Additional Experience

3IC, Kathmandu, Kathmandu Innaloo, WA, 2022 – 2023

- Optimized performance through monitoring and team mentoring, ensuring service demands were met efficiently.
- Maintained positive customer relationships by addressing inquiries and demonstrating a helpful, friendly attitude.

Sales Advisor, Kathmandu, Innaloo, WA, 2020 – 2022

- Provided tailored solutions to diverse customer needs, adapting sales techniques to individual client requirements.
- Consistently met and exceeded sales targets while regularly serving high volume of in-person and phone customers.
- Assisted a daily average of 70 to 100 customers, both in-person and via phone interactions.

Education

Bachelor of Information Technology - Software Development, 2022

Southern Cross University - Perth, WA

Project

E-commerce Website for Serene Handicrafts, Southern Cross University, Perth, 2022 - 2023

- Led team of four in developing a multi-page E-commerce website, overseeing both front-end and back-end development.
- Delivered website with membership database and payment system, hosted under domain www.serenehandicraft.com, and presented the project, including source code, detailed report, and a demonstration video, ultimately achieving a Distinction mark for the project.

Awards & Recognition

- Academic Achievement Award, Southern Cross University 2021
- Academic Excellence achievement, Cloud and Enterprise Computing, Federation University Australia 2020
- Australian Red Cross-certified First Aid Provider
